EMPLOYMENT APPLICATIONS

The West Central Texas Municipal Water District (Water District) does not accept applications and/or resumes except for positions that the Water District currently has open. All applications and/or resumes must designate the open position being applied for or they will be disposed of. The Water District does not retain applications and/or resumes for any period of time. Individuals interested in applying more than once for employment must submit an application and/or resume each time they apply.

No individual can be made an offer of employment with the Water District without filling out an official Water District Application for Employment. If the candidate has submitted a resume in order to apply for an open position, he/she may use the resume to satisfy the Employment and Education Sections of the Application, but all other sections must be filled out and the Application signed.
